**Rotary Cancer HospHa] in Delhi**

1221. SHRI PARVATHANENI UPENDR.A: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether it is a fact that the Rotary Cancer Hospital in Delhi is working only as an appendage of the All India Institute of Medical Sciences, New Delhi and 'hat it has no Director to coordinate the func tioning of its different wings namely radiotherapy, surgery and chemotherapy;

(b) whether it is also a fact that the doctors in the Out-door Patients Depait-ment in the Rotary Cancer Hospital start examining the Out-door Patients after 11 A. M. instead of 9.00 A.M. like the Out-door Patients Department in the All India Institute of Medical Sciences and other major hospitals, if so, what are the , reasons therfor?

THE DEPUTY MINISTER IN THE DEPARTMENT OF FAMILY WELFARE (SHRI S. KRISHNA KUMAR): (a) The Institute—Rotary Cancer Hospital, New Delhi is as much a part of the All India Institute of Medical Sciences as other Departments/Centres viz. Dr. Rajendra Prasad Centre for Ophthalmic Sciences, Cardiothoracic Centre & Neuro Sciences Centre. Professor and Head of the Department have been designated as Chiefs of such centres who coordinatft the functioning of the Centres under them and are responsible to the Director, All India Institute of Medical Sciences.

(b) It is true that doctors in the Outdoor Patients Department in the Rolaiy Cancer Hospital start examining the Outdoor patients after 11.00 a.m. These *timings* have been fixed due to following reasons:—

1. Chemotherapy can be administered only after the report of bloodcounts is available. Majority of patients are therefore, to get blood counts checked before the chemotherapy is administered on the same day. Therefnre, the patients have to come in the .morning when they give theirblood samples so that the reports we ready by 11.00 a.m.

2. The morning timings i.e. 9.00 a.m-to 11.00 a.m. have been fiJted so that the doctors can look after the in-door patients since same Faculty and Resident doctors carry out both in-patients and out-patient work.

The patients suffering from cancer disease also report to various O. P. Ds of the All India Institute of Medical Sciences (Main) hospital and are examined there.

If necessary, they are referred to the Institute-Rotary Cancer Hospital for fur-ther investigation and treatment. Besides, there iv; a Radiotherapy Department in the All India Institute of Medical Sciences (Main) which also treats the patients suffering from cancer disease. The patients are seen in the morning from 9.00 a.m. onwards in all the O.P. Ds of All India Institute of Medical Sciences and from 2.00 p.m. onwards in tfie clinics.
